

# se:vision desk & se:vision storage

se:vision desk & se:vision storage combine both representativeness and individuality. With a harmonious appearance that perfectly integrates the table and storage space, they create a consistent, distinguished atmosphere. se:vision desk stands for individuality and value, while se:vision storage ensures organisation and flexible design options. Both products embody quality and durability, offering perfect adaptability to personal preferences, from minimalist to cosy.

## Advantages

- Table and storage space combinations reflect the status of the user.
- se:vision desk & se:vision storage can be individually designed or customised.
- The table with storage space has a high-quality appearance and conveys value.
- The large selection of colours and materials ensures a high degree of design variety.
- se:vision desk & se:vision storage radiate representativeness.
- The table with storage space responds to the customer's need for sustainability.

## Features

- The table with storage space fulfils high standards of design, aesthetics and quality.
- The element under the table is always identical to the table depth (800, 1000, 1200 mm).
- In the storage space version with the attached table, the supply cable can simply be guided into the storage space under the back panel.
- High-quality materials such as Fenix, linoleum and veneer are used.

## Options/accessories

- se:vision storage can be selected as free-standing or with table attached.
- An imitation leather inlay for the drawer is optionally available in either black or cognac.
