

sedus

se:lab island

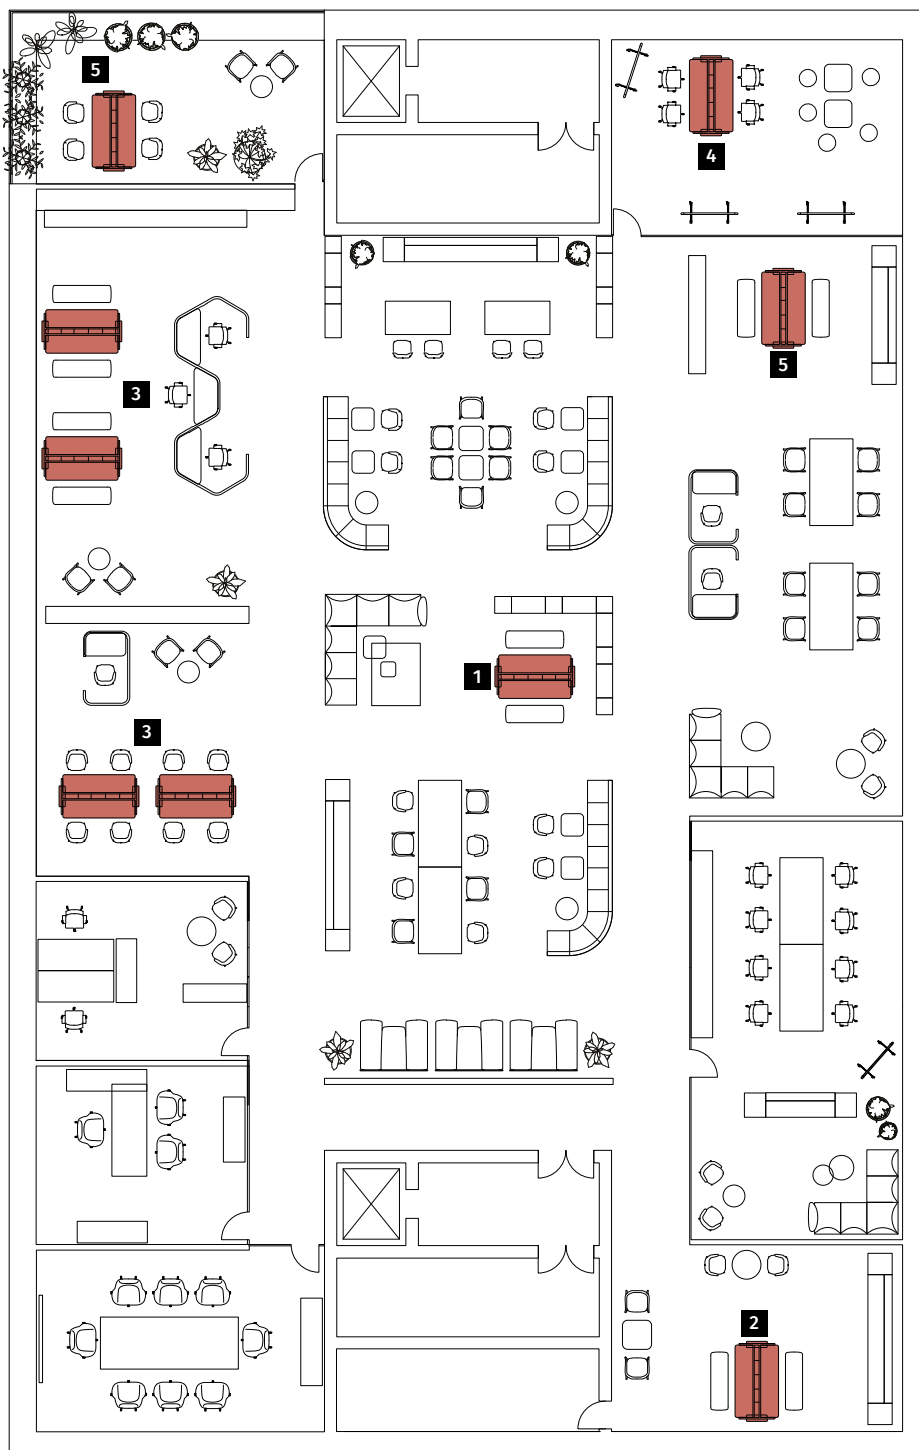

Working, meeting, socialising

In the Sedus Smart Café, where working and meeting spaces merge into one another, se:lab island is the centrepiece: a flexible group table that unites design and functionality. With its modern, attractive look and selection of colours and materials, se:lab island enables individual room designs that promote creativity and well-being. Biophilic elements create a connection to nature that emphasises the inspiring environments in the Smart Café. With two height adjustments and the option of castors and adjustable glides, se:lab island adapts to different usage scenarios – from dynamic meetings to informal break times. Thanks to the integrated power supply, it becomes a multifunctional centre for effective working and socially minded exchange. Whether as a creative meeting point, for quiet zones or part of agile workshop settings – se:lab island unites aesthetics, flexibility and intelligent infrastructure and turns the Smart Café into a place that means employees feel welcome and inspired.

Application areas

- | | |
|--------------------------------------|------------------------------------|
| 1 Work Café | 4 Project rooms & workshops |
| 2 Canteen, bistro & cafeteria | 5 Libraries & quiet zones |
| 3 Hubs & intermediate areas | |

se:lab island

● se:lab island

The versatile se:lab island group table is the core element of the Work Café and impresses through its homely and inviting design. Two versions for ergonomic sit/stand working encourage collaboration, making them ideal for use in project rooms and workshops.

se:lab island

Multifunctional meeting island for agile working

se:lab island is the core element of the Smart Café and impresses thanks to its homely and inviting design. With the combination of aesthetics and functionality, the group table creates an anchor point for dialogue and workshops. With its informal design, reminiscent of outdoor areas, se:lab island serves as both seating and a high table, allowing for a creative environment where thoughts can flow in peace and quiet.

Advantages

- As a central meeting point, e.g. for teams, the group table can promote socialising and collaboration.
- The practical superstructure and a wide range of accessories make the meeting island an individual eye-catcher.
- The use of plants or planters improves the indoor climate and enhances the area.

Features

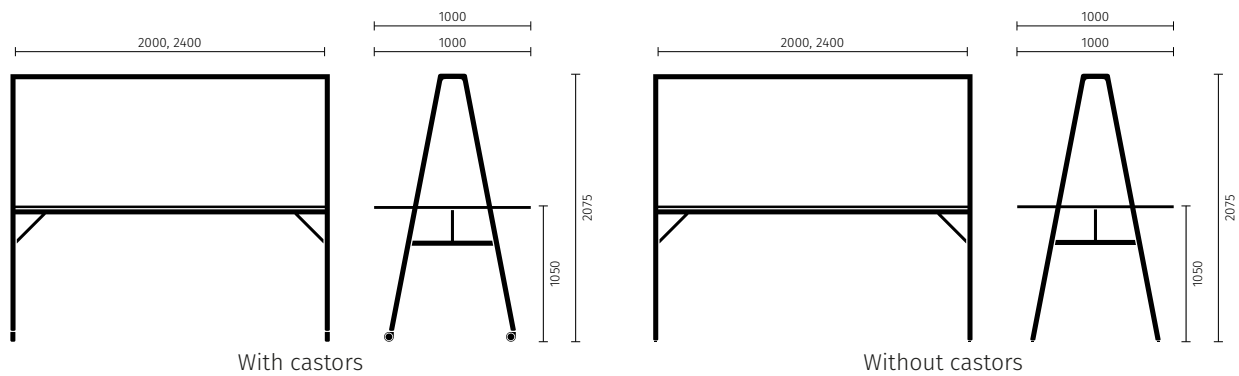

- Two model versions make ergonomic working in a sitting or standing position possible.
- Connection for power supply is available to charge individual devices.
- se:lab island has GS certification.
- The delivery of the group table takes place partially disassembled in several packages.
- The Sedus colour palette is available.
- It is a safe product with high processing quality.

Options/accessories

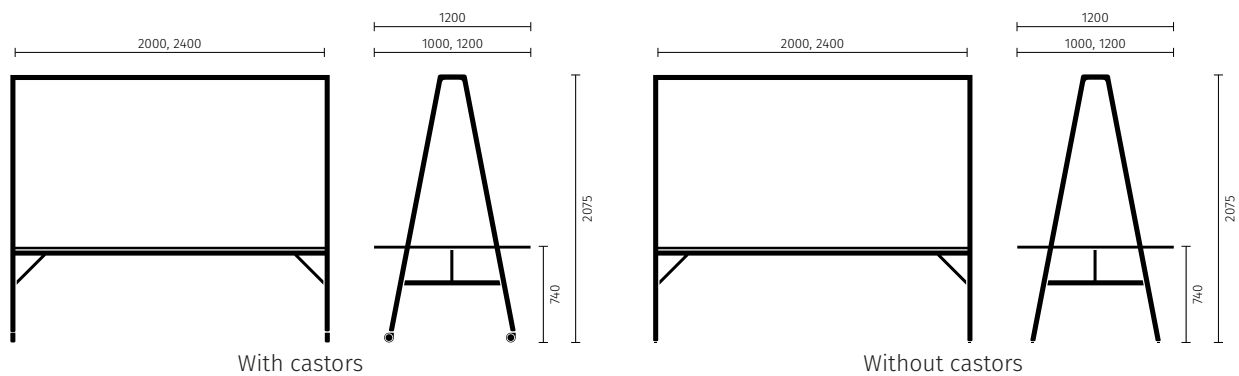

- There are two different fitting types for the meeting island: on adjustable glides or on castors (the total height still remains the same, as the tubing is shortened accordingly).
- Side panels can be selected as an optional extra.
- Angular or rounded panel corners can be selected.
- The practical superstructure of se:lab island can be fitted with customised accessories.
- Optionally, a storage tray can be added on one side.
- A complementary whiteboard mount (exterior) can be selected.
- A complementary light fixture can be selected.
- A complementary monitor mount can be selected.
- An optional plant insert can be added to the storage tray.
- Additionally, a planter can be chosen for the 3rd level.
