

se:assist

The se:assist table family has been further developed for use in the Smart Café and special table heights, table top shapes and dimensions have been added for this application. In this way, se:assist brings people together, both in the office and in break-out areas. The comprehensive product family can be used flexibly in a wide range of applications. The colour selection has also been expanded to include even more versatile design options.

Advantages

- The functional design with a trumpet foot, which can be selected in different base plates, makes generous legroom possible and ensures good stability.
- The coordinated colour concept ensures a harmonious design within the space.
- se:assist breaks away from the atmosphere of functional working areas.
- The table responds to customer needs for simplicity and planning reliability.

Features

- The product family has been expanded to include new table heights, desktop designs and dimensions as well as colours.
- There are five standard heights for a wide range of application areas, from lounge height to standing tables.
- The lifting desk is equipped with a star base with castors.
- The height-adjustable lifting tables in the product family are supplemented by the table top designs and the new softened base (colour selection for lifting columns: clear white, black, white aluminium).

Options/accessories

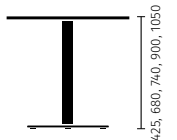

- The following table top designs are available: 19 mm and 25 mm chipboard from the Sedus surface collection.
- For certain dimensions, there is an electrical connection option with round grommet and hidden cable management through the column.
- Optionally, a CDF table top with bevelled edge can be selected, which radiates value and cosiness.
