

sedus

se:assist

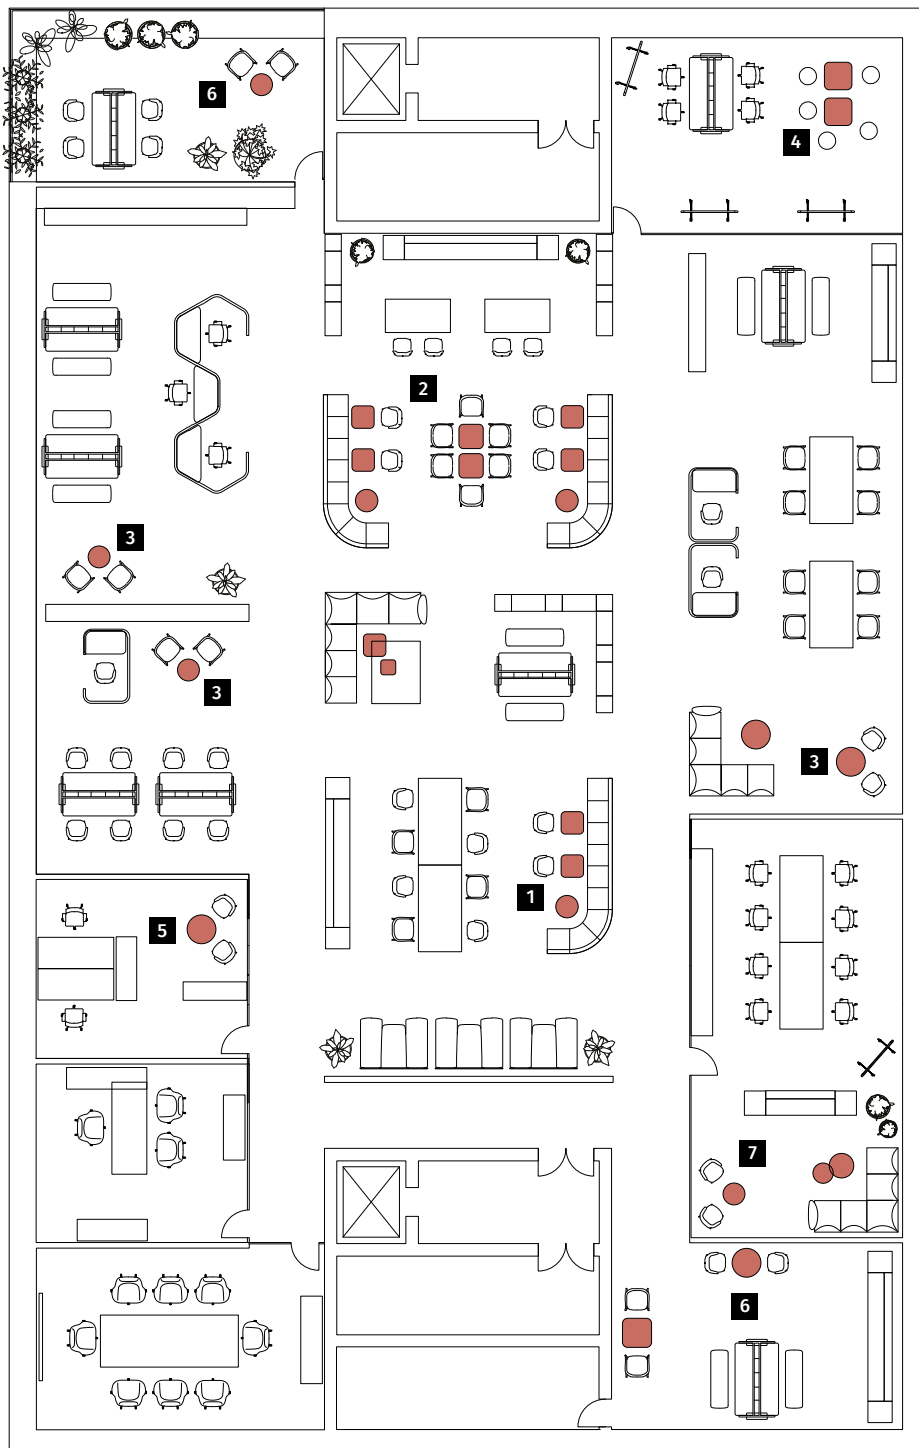

For small groups, individual work and break areas

With se:assist, Sedus offers a family of tables that is specially tailored to the requirements of modern work cafés. Today's office needs to be more than just a workplace – it should be a place of encounter, creativity and informal exchange. Bistro and lounge tables play a central role in this, as they combine flexibility and functionality and serve different needs in relaxed environments. se:assist has been specifically expanded to offer the right solution for every setting: from low lounge heights for short coffee meetings to high standing tables for spontaneous encounters. With new table heights, shapes and dimensions, as well as a wide range of colours and surfaces, the product family sets new standards in design and function. Complemented by innovative details such as softened base plates or diner formats, se:assist becomes an indispensable element in modern office concepts – for a working environment that inspires and connects.

Application areas

- | | |
|--------------------------------------|--|
| 1 Work Café | 5 Meeting & seminar rooms |
| 2 Canteen, bistro & cafeteria | 6 Quiet zones & spaces of retreat |
| 3 Hubs & intermediate areas | 7 Lounge & reception areas |
| 4 Project rooms & workshops | Individual & team workstations |

se:assist

● se:assist

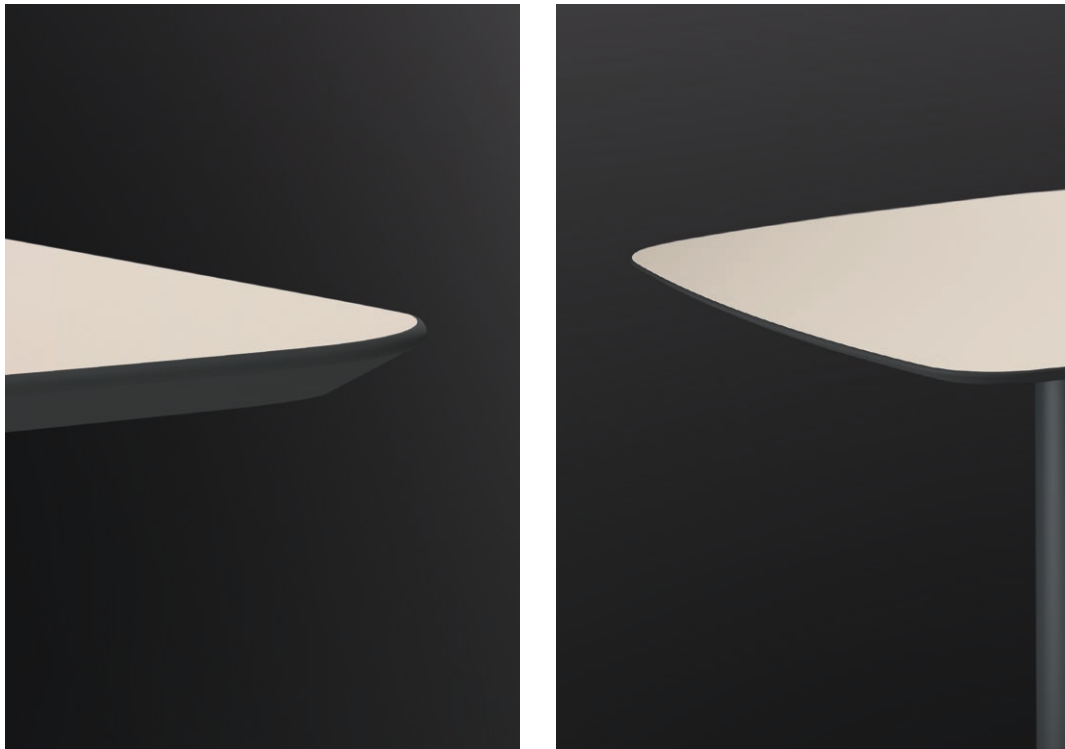

se:assist has been further developed and now has special table heights and top dimensions for use in work cafés. Suitable for a wide variety of application areas, the table family brings people together, both in the office and in break-out areas.

se:assist

Multifunctional table range for different areas of application

The se:assist table family has been further developed for use in the Smart Café and special table heights, table top shapes and dimensions have been added for this application. In this way, se:assist brings people together, both in the office and in break-out areas. The comprehensive product family can be used flexibly in a wide range of applications. The colour selection has also been expanded to include even more versatile design options.

Advantages

- The functional design with a trumpet foot, which can be selected in different base plates, makes generous legroom possible and ensures good stability.
- The coordinated colour concept ensures a harmonious design within the space.
- The table breaks away from the atmosphere of functional working areas.

Features

- The product family has been expanded to include new table heights, desktop designs and dimensions as well as colours.
- There are five standard heights for a wide range of application areas, from lounge height to standing tables.
- The lifting desk is equipped with a star base with castors.
- The height-adjustable lifting tables in the product family are supplemented by the table top designs and the new softened base (colour selection for lifting columns: clear white, black, white aluminium).
- The table has GS certification.

Options/accessories

- The following table top designs are available: 19 mm and 25 mm chipboard from the Sedus surface collection.
- For certain dimensions, there is an electrical connection option with round grommet and hidden cable management through the column.
- Optionally, a CDF table top with bevelled edge can be selected, which radiates value and cosiness.

se:assist is sustainable.

Social responsibility

- A wide variety of settings are available.
- Employees come together when using se:assist.

Economy

- Different design variants, a variety of heights, panel formats, colours and finishes can be mixed and matched.

Ecology

- The use of materials is minimal.
- Separation by material type is simple.
- Produced using 100% green electricity.

Sedus pursues a holistic approach to sustainability based on the three pillars of social, ecology and economy. The goal of becoming CO₂-neutral at its administrative and production sites by 2025 is actively supported through the development of innovative products and efficient production methods. Sedus is also committed to social projects, education and health through two foundations to which the company is majority-owned, thus making a positive contribution to society. With the “Sedustainable” initiative, Sedus designs holistic workplace solutions that both protect the planet and improve the quality of life of its employees. We really care.

We really care

Designed, engineered, crafted **in Germany. Since 1871.**
